071	Waiariki	57,676	-2,465	-4.1%	-4%	-5%

Population Projections

Population projections for 2014 and 2017 have been provided by Statistics New Zealand. These projections are based on assumptions made about future fertility, mortality, and migration patterns of the population. Although the assumptions are carefully formulated to represent future trends, they are subject to uncertainty. Therefore, the projections should be used as guidelines and an indication of the overall trend, rather than as exact forecasts.

Quota, electoral population and variance from quota are based on the 2013 electoral populations (from March 2013 Census). The 2014% and 2017% are the projected percentage difference in electoral populations from the projected quota in October 2014 and October 2017 for each electoral district. Percentages for population projections are rounded to the nearest whole number.
